

Federal Guard Plan Cut Out Of Army Bill

Senate Proposals for Universal Training and Automatic Revival of Draft Also Eliminated

Peace Force Is 297,000

Militia Continues as at Present: Reserve Corps Provided by Conferees

WASHINGTON, May 27.—The army reorganization bill emerged from conference today shorn of Senate proposals for federalization of the National Guard, for a voluntary universal training system and for automatic revival of the war-time selective service act on declaration of a war emergency.

The bill, as agreed upon, provides for a peace time regular army of 297,000 officers and men, including the Philippine scouts; for continuation of the National Guard substantially on the present basis and for the organization of an enlisted reserve corps liable for fifteen days of training duty a year, except in case of war emergency.

Proposal of the Senate to create the post of Under-Secretary of War to have charge of procurement of war supplies was accepted in substance by placing this duty on the Assistant Secretary at an increased salary of \$10,000 a year. The Assistant Secretary will function as a business manager. The bill also creates within the department a permanent war council, composed of the Secretary, Assistant Secretary, the general of the army and the chief of staff, which will determine military and munition problems.

Senate provisions reconstructing the general staff on French army lines and making separate branches of the air service, signal corps and chemical warfare sections were retained. The bill provides an air force to include 1,514 officers and 16,000 men, commanded by a major general. For the line of the army twenty-one major generals, forty-six brigadier generals, 325 colonels, 674 lieutenant colonels, 2,245 majors and 4,490 captains are provided. Chiefs of infantry, cavalry and field artillery are to be major generals. Provision for the Porto Rican infantry to be incorporated into the Regular Army also is made. Promotions will be from a single list under yearly classification with provision for discharge of unfit officers, and the summer training camp system is perpetuated to aid in developing reserve officers.

Direct representation of the National Guard on the general staff was eliminated, but provision was made for assignment of guard officers when needed by the department. Military rank for army nurses, the superintendent with rank of major, also is provided.

The provisions for an enlisted reserve corps for civilians include authority to divide the country geographically into corps areas, each to include a division of National Guard or enlisted reserve corps troops with proper reserve officer assignments to constitute a tactical organization for administrative purposes. Enlistments in the reserve would be for three

years, except World War veterans who would be accepted for one year.

Navy Budget Fixed At \$436,000,000

Conferees Agree Upon Twenty Millions for Purposes of Aviation

WASHINGTON, May 27.—Next year's naval budget was fixed at about \$436,000,000 under a complete agreement on the naval appropriation bill reached today by Senate and House conferees. The original House bill carried \$425,000,000 and the Senate about \$467,000,000.

The conferees agreed on \$20,000,000 for navy aviation, a compromise between the \$15,800,000 voted by the House and \$25,000,000 by the Senate. In lieu of the Senate appropriation of \$1,000,000 to begin work on the new Pacific Coast base in San Francisco

Bay, the conferees authorized a Congressional commission of five Senators and five Representatives to investigate available sites on San Francisco Bay and report to Congress not later than December 31.

Virtually all increased aviation items were for Pacific Coast projects. The Senate yielded its proposed increase from \$104,000,000 to \$108,000,000 of appropriations to complete the three-year building program and also on the Senate amendment providing \$11,700,000 for completing aviation and destroyer tenders at Hog Island. The House accepted the Senate amendment of \$4,355,000 for a new hospital ship. The permanent strength of the Marine Corps was placed at 27,400. Proposal for department development or naval oil lands not in litigation, made by the Senate, was agreed to.

Senate plans for the naval reserve forces also prevailed, but with \$50,000 appropriation instead of \$500,000. Items dropped included Boston dry dock, \$300,000; Puget Sound oil storage, \$1,050,000; railroad connection, Las Animas (Col.) hospital, \$60,000; Newport (R. I.) torpedo station, \$200,000.

Increases approved included Great Lakes to \$575,000 and \$200,000 additional for receiving barracks; \$100,000 each for new cranes at Brooklyn and Philadelphia and \$50,000 for New London (Conn.) submarine base.

National Labor Party Plans Combine in Political Campaign

CLEVELAND, May 27.—National officers of the National Labor party and of the Committee of Forty-eight will hold a joint conference here tomorrow to consider combining or co-operating in this year's political campaign in the matter of formulating a platform and nominating candidates for President and Vice-President. Max S. Hayes, chairman of the National Labor party, announced today.

Thousands Block Traffic In Rush to Buy Cheap Sugar

ANDERSON, Ind., May 27.—Several thousand persons impeded traffic for blocks here today in an effort to purchase sugar advertised at 17½ cents a pound by a local merchant. The rush started early in the morning and indications were it would last until all the sugar had been sold. Sugar has been bringing around 30 cents a pound.
